ODIMCTRL660

Open Decisions Inc. (ODI) founded in 2009, with our HQs in Toronto and offices in Vancouver and Calgary serving customers across North America.

ODI helps organizations assess how to maximize their performance and works with them to achieve their vision. We develop and implement technology to improve our clients' productivity and efficiency. Ultimately, we enable our clients to become high-performance businesses and governments. Open Decisions Inc. helps your business succeed by providing essential technologies and insights that enable you to operate more profitably, efficiently and collaboratively.

We have over 20 years' experience in IT operations and architecture design and we provide interminable experience in developing an organization's business goals. Our engineers can provide long term professional services on hardware, software, networking, and telecommunication. We at Open Decisions are currently certified and registered to sell IBM, Dell, HP Oracle, Cisco, NetApp, Aruba, Lenovo and HDS to name a few. With a group of senior IT architects and technical experts nationwide, Open Decisions has evolved its service into system deployment, IT architecture and IT out-sourcing.
